TECHNIQUE
TANGO
In this tech-savvy world we live in, relaxation and release usually involve a screen of some kind. But at Kendall College of Art and Design of Ferris State University (KCAD) we believe that the best way to give your brain a break from the daily grind is to tune it up, not turn it off.

KCAD’s Continuing Studies adult classes stretch your creative muscles and help both you and your brain get up, get out, and get moving. Enter into experiences that activate both body and mind, and you’ll soon find yourself wishing there were more hours in the day.

Plunge your hands into the mud in our Wheel Crash Course (p. 17); experiment with materials as you learn new ways of making in our Expressionist Woodcut class (p. 18); or grant yourself the freedom to dance and play in our new Enhancing Creativity with Experiential Movement (p. 19) class.

So don’t just go through the motions — find a class that fits your need today!
